

Engage With Age Program

Engage with Age is a two-year partnership, initiated and funded by Southminster, in collaboration with UNC Charlotte and the Renaissance West Community Initiative to help decrease social isolation among elders in community and increase opportunities for intergenerational engagement.

Effective Dementia Communication Strategies

Back by popular demand, the Alzheimer's Association will be presenting a class on effective communication strategies for people with dementia. This course will assist caregivers, friends, and/or family on learning how to decode messages amongst those living with Alzheimer's disease and dementia through attitude, tone of voice, facial expressions and body language. These techniques can help both parties to connect and communicate in meaningful ways.
