

## Engage With Age Program

Engage with Age is a two-year partnership, initiated and funded by Southminster, in collaboration with UNC Charlotte and the Renaissance West Community Initiative to help decrease social isolation among elders in community and increase opportunities for intergenerational engagement.

## Know The 10 Signs: Early Detection Matters

Presented by the local Alzheimer's Association, you will have the opportunity to engage in a discussion about early signs of dementia. It is often that warning signs of Alzheimer's disease are dismissed as side effects of normal aging. This workshop will provide you with a greater understanding of the difference between age-related memory loss and dementia. You will also learn what to do if individuals are displaying signs of Alzheimer's disease.
